## ABOUT US

At Devorexa, we don't just build digital products — we engineer them to scale. With deep expertise in frontend, backend, mobile, AI, and DevOps, we help businesses transform bold ideas into future-ready solutions. Rooted in DevOps and Cloud, every product we deliver is automated, scalable, and built to last.

### VISION

To create a world where businesses move at the speed of innovation, powered by automation, intelligence, and seamless collaboration.

### MISSION

To deliver end-to-end technology solutions with a DevOps-first approach — building, automating, and scaling digital products that drive measurable business impact.

# WHY DEVOREXA?

## FULL-STACK EXPERTISE

Web, mobile, AI, and DevOps under one roof.

## AI-DRIVEN APPROACH

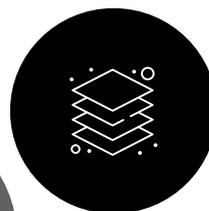

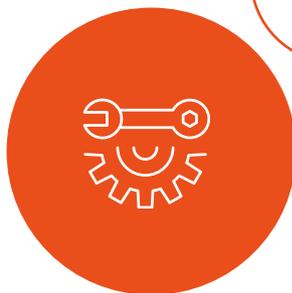

From AI agents to Edge AI, we integrate intelligence where it matters most.

## DEVOPS DNA

Every solution is cloud-native, automated, and future-ready.

## AGILE & SCALABLE TEAMS

Flexible engagement from small startups to large enterprises.

## OUR SERVICES

### END-TO-END IT SOLUTIONS WITH DEVOPS AT THE CORE

#### PRODUCT ENGINEERING

Web, mobile, and backend solutions designed to scale.

#### CLOUD & DEVOPS

Cloud-native, automated, and cost-optimized infrastructure.

#### ARTIFICIAL INTELLIGENCE

AI agents, Edge AI, and intelligent system integrations.

#### IT CONSULTING & SUPPORT

Strategic guidance and managed services to keep you ahead.

“ From idea to execution – engineered to scale. ”

# OUR CLIENTS & COLLABORATORS

# CASE STUDY #1

## Healthcare SaaS Platform Cloud Modernization

### CHALLENGES

A healthcare SaaS provider was struggling with slow deployments, high cloud costs, and downtime risks due to manual server management.

### SOLUTION

Devorexa migrated their infrastructure to AWS, implemented Kubernetes-based CI/CD pipelines, and automated provisioning using Terraform & Ansible.

### IMPACT

Deployment speed improved by 70%.  
Cloud costs reduced by 30%.  
System reliability increased with zero downtime rollouts.

### RESULT

A secure, HIPAA-compliant SaaS platform ready to scale globally with confidence.

## CASE STUDY #2

### E-Commerce Startup End-to-End Product Build

#### CHALLENGES

A retail startup wanted to go digital with an e-commerce platform that could handle growing traffic, mobile-first users, and multiple payment options.

#### SOLUTION

Devorexa built a full-stack solution with React (frontend), Node.js (backend), and a mobile app (Flutter). Integrated AI-driven recommendation engine and deployed on Azure with DevOps pipelines for scalability.

#### IMPACT

Smooth, mobile-friendly shopping experience.  
AI-powered personalization increased conversions.  
Scalable backend handling 10x traffic spikes.

#### RESULT

Startup successfully launched online with a future-ready platform, driving sales and brand growth.

## CASE STUDY #3

### Manufacturing Firm AI & Edge Automation

#### CHALLENGES

A mid-sized manufacturing company wanted to predict equipment failures and automate quality checks at the factory floor using AI.

#### SOLUTION

Devorex developed an Edge AI solution integrated with IoT sensors. AI models ran locally for real-time predictions while dashboards were hosted on the cloud for monitoring. CI/CD pipelines ensured quick model updates.

#### IMPACT

Reduced downtime by 40%.  
Improved product quality with automated anomaly detection.  
Real-time insights accessible to plant managers.

#### RESULT

Client achieved smarter manufacturing operations, with significant cost savings and increased production efficiency.

## OUR SATISFIED CLIENTS

### PARTNERSHIPS BUILT ON SUCCESS

“ Trusted by leading brands and businesses worldwide, Devorexa delivers innovative DevOps, Cloud, AI, and software solutions that drive growth and efficiency. ”
